

Timeline 2016 forward

2

1 Winter quarter 2016

4 Next steps for current projects?

- Brachiopod regional diversification
- 6 • Mammal trait occurrence ratio

2 Spring quarter 2016

8 TAing

- Hopefully Dimitry Kondrashov's Biological Modeling class.
- 10 • Otherwise try to snag something in Greg and Stefano's new E&E class
Evolution (June 17-21 Austin Texas)

- 12 • Present on which project?
 - Brachiopod diversity is a more mature project.
- 14 • Suggestions for people to talk about post-doc opportunities?

Committee meeting

- 16 • What are the goals between now and then?
- What should I have written (and sent to MORE people than just Ken or
18 Michael)?

3 Summer quarter 2016

20 Finishing and post-doc applications

- Am I finishing in 2017?
- 22 • Do I plan for a 6th year?

- Post-doc where and with whom?

24 Project goals

- Try to have one of the current projects in late editing phase?

26 **4 Fall quarter 2016**

Many post-doc applications due

- 28 • Miller Fellowship w/ Charles Marshall? I've not spoken to him about this yet.

30 GSA September 25-28 Denver Colorado

- Present on which project?

32 SVP October 26-29 Salt Lake City Utah

- Do I need to go?

- 34 • What would I present? Romer talk?

Committee meeting

- 36 • What are the goals between now and then?

5 Winter quarter 2017 and beyond

38 Finishing my dissertation

- What projects are “in” as chapters?

- 40 • What do I need to do to finish?

– Dissertation office prep starts 6 months prior.
